

DT-NSCB

NIGHT VISION
CLIP-ON SIGHT

PRODUCT DESCRIPTION

DT-NSCB has a professional clip-on behind sight design, adopts an all- metal body structure with high mechanical strength. The quick-release design is easy to remove or assemble. When used with a daylight sight (daysight of an 8-10x lens), it can achieve a good sighting imaging at night. It can be used for field sniping operations at night.

CHARACTERISTICS

Use mode optional:
Head-Mounted,
Handheld,
Clip-On Sight

Clip-on sight, with day
scope for night use

Full metal housing
Impact resistance
strength > 1000g

Model	DT-NSCB
Generation	Gen2+/Gen3(optional)
Magnification	1X
Resolution	60-64
Objective pupil	22mm
FOV(°)	40
Exit pupil diameter (mm)	50
Distance of pupil	9
Eyepiece aperture (mm)	+/-5
Battery type (v)	The 1 section 3V lithium battery
Battery life (h)	40-50
Operating temperature (°C)	-40/+50
Relative humidity	5%-98%
Impact resistance	>1000G
Waterproof	IP65/(IP67 optional)
Dimensions(mm)	160x55x69(including eye mask)
Weight (g)	295g(finished)
